MicroSD card 256 GB High Endurance

Art.-Nr. TVAC41131

The microSD card is an extremely compact memory card with a read and write speed of up to 100 MB/s (Class 10). This makes the card, which is smaller than a fingernail, an optimal storage medium for local recording in an IP camera and allows it to act as backup storage. The card meets the high standards required for the reliable recording of video data in 24/7 operation, even in adverse operating conditions. It is available with various storage capacities.

Technologies

- Ideal for storing video data during long-term continuous operation

Technical data - MicroSD card 256 GB High Endurance

Depth	15 mm
Dimensions	15 x 11 x 1,0 mm
Height	1 mm
High speed class	Class 10
Max. Operating temperature	85 °C
Max. Reading speed	100
Max. Write speed	40
Min. operating temperature	-25 °C
Net weight	0.001 kg
Product group	Recording solution
Storage capacity	256
WEEE group	09
width	11 mm
