Neck guard Hi-Viz Orange

NECK GUARD IN SIGNAL COLOURS

Extend your work helmet with our neck guard - the ideal accessory for protecting the part of the body that is particularly exposed to risks such as UV light, rain or dust when working outdoors.

Perfectly compatible with the Spector, Spector-E, Scator and Scator-E safety helmets, this accessory offers additional protection and increases comfort during various activities.

The neck guard can be quickly and easily attached to the back of the helmet thanks to practical click fasteners, so that you are always prepared for sudden changes.

It is made of polyester material that offers effective UV protection and also ensures better visibility in low light conditions thanks to its reflective stripes. The neck guard is available in two eye-catching signal colours: Hi-Viz Yellow and Hi-Viz Orange. Both colours ensure optimum visibility on the construction site, in rainy weather or in bright sunlight.

Technologies

- Neck protection made of textile fabric (polyester) with reflective stripes
- Easy installation thanks to click fasteners to attach the neck guard to the back of the helmet
- Reliable UV protection
- Colour variants: Hi-Viz Yellow / Hi-Viz Orange

Operation and use

- Helmet accessory for the Spector, Spector-E, Scator and Scator-E safety helmets
- Provides additional protection and increases comfort during various activities, especially those that involve an increased risk of injury or extreme weather conditions such as sunlight or rain
