Mesh full visor Scator(-E)

PROTECTIVE VISOR FOR FORESTRY, GARDENING AND LANDSCAPING

Our face protection was specially developed for wearing during vegetation and forestry work as well as gardening and landscaping activities.

The robust and rustproof metal mesh visor with its tiny ventilation openings ensures optimum breathability and reliably protects your eyes and face from flying objects.

The wide-angle lens offers you a clear view and comprehensive protection. The mesh full visor can also be worn over prescription glasses without any problems. Thanks to the individual height adjustment, the full visor adapts perfectly to the shape of your head and offers you maximum freedom of movement at work.

The adapter with push button enables simple mounting on your safety helmet, so that you are quickly equipped for use in forestry or gardening and landscaping, for example.

The mesh full visor is compatible with all safety helmets from ABUS and is therefore the perfect accessory for the Spector, Spector-E, Scator or Scator-E. Thanks to the modular design of our safety helmets, the mesh full visor can also be worn with earmuffs.

Technologies

- Robust material: Metal mesh visor (rustproof), breathable thanks to tiny ventilation openings, reinforced frame to protect against debris
- Effective protection: Large-area coverage of the eyes and face, mesh full visor can be worn over prescription glasses
