

MORE COMFORT AND PROTECTION WITH THE ACCESSORY KIT FOR XACTO GLASSES

This specially developed safety glasses accessory offers optimum additional protection for your eyes and is only suitable for Xacto safety glasses.

The foam frame reliably protects your eyes from particles, dirt and dust by covering the entire lens of the Xacto safety glasses, preventing foreign bodies from entering. Thanks to its cushioning properties, the foam frame not only offers protection, but also significantly increases wearer comfort. The excellent air circulation also makes wearing glasses and foam frames comfortable.

The set also includes a headband for the Xacto safety glasses to keep them in place. The elasticated band allows for individual and infinite adjustment so that the accessory can be perfectly adapted to any head shape. It offers a secure hold and stable fit even when working overhead. This accessory is the ideal solution to maximise your safety and comfort at work.
