CityChain™ 1010/110 black

Ideal protection when there is a high risk of theft

The ABUS CityChain™ 1010 Chain Lock ensures your favourite bike is well-protected against theft.

This ABUS chain lock is available in four different lengths, from 85cm to 170cm. Often, the best places to lock your bike are already in use, especially in the city. The 170cm version of the ABUS CityChain™ 1010 Chain Lock ensures you're well prepared for situations such as these. A 9mm thick hexagonal chain with a textile sleeve and an extra secure cylinder, which also protects against lock picking, keep thieves away.

Technologies

- 9 mm hexagonal chain with fabric sleeve to prevent damage to the bicycle's paintwork
- The chain, the lock body and supporting elements of the locking mechanism are made of specially hardened steel
- ABUS Plus cylinder for high protection against manipulations, e.g. picking
- Automatic cover for the keyhole against dirt and corrosion

Operation and use

- Good protection at high theft risk
- Recommended for securing high quality bicycles
- The longer the chain, the easier the bicycle can be locked to a fixed object

Tips

- The lock can be ordered keyed alike with other locks, all of which are operated using the same key or locking method
- Very easy handling, because only one end of the chain has to be locked
