Smiley 2.0 pink butterfly S

SAFETY RIGHT FROM THE START

The SMILEY 2.0 from ABUS provides little cyclists with everyday all-round protection. Comical designs, very easy adaptability and ideal ventilation make this bike helmet the ideal companion.

Whether your child is still sitting in the child seat, has progressed to the training bike or is trying their own child's bike for the first time - this simple entry-level helmet with imaginative designs offers reliable protection. With the small visor and the deep neck area, the SMILEY 2.0 protects your child’s head from all sides. The outer shell is bonded to the shock-absorbing EPS shell through an in-mould process which makes it incredibly sturdy yet light.

Technologies

- Reflector Sticker: for better visibility in the dark
- Bug Mesh: keeps flies and other bugs off your head without messing with the helmet's ventilation
- Zoom™ Spin adjustment system: rotary wheel at the back of the head for individual adjustment of the helmet to the head size
- Flap Divider™: strap divider for individual adjustment of the straps below the ears – with clamp fastener to fix the set position
- Comfort Pads: soft padded inserts for optimum comfort, attached to the helmet with Velcro
- Removable, washable pads: can be removed and washed by hand or replaced if necessary
- Push-in buckle: for safe and practical handling, the straps are fitted with a classic chin lock (three-pronged connection) for opening and closing
- In-mould process: production process in which the inner cushioning material made of expanded polystyrene (EPS) is foamed directly into the outer shell made of polycarbonate (PC) – this creates a durable and robust connection
