

SAFETY WITH AN ANGULAR DESIGN

The cool Yadd-I helmet model is now also available in a special version for children and young people. With the Yadd-I Kid, children can ride their bikes particularly safely - and in style.

To encourage children and young people to wear a helmet, it needs to be comfortable, practical and cool. A good helmet can be worn almost as well as a baseball cap - provided that it is adjusted in just the right way. The recently developed Soft Tune System from ABUS automatically adapts to the wearer's features thanks to the flexible elastic fastener, and ensures an exceptional fit with maximum comfort. After it has been set for the first and only time, the helmet can be put on and taken off in no time - like a baseball cap.

Technologies

- In-Mold for a durable connection of the outer shell with shock-absorbing helmet material (EPS)
- Good visibility thanks to highly luminescent reflectors
- Ponytail compatibility – the helmet is ideal for riders with ponytails
- Forced Air Cooling Technology – intelligent ventilation system with five ventilation openings connected to one another by specially designed flow ducts
- Soft Tune System – elastic, variable adjustment system for a secure fit and outstanding comfort

Yadd-I Kid white street M

Technical data - Yadd-I Kid white street M

Finish	shiny
Head size	55-59 cm
Peak	No
Size	M
