## A TRENDY CITY HELMET WITH VISOR

Can our most popular hard shell helmet be improved? Of course the Hyban is already an outstanding helmet, but with the Hyban+ we have optimised this excellent helmet.

The Hyban+ combines the trend and technology of the ABS hard shell helmet Hyban with a practical visor. In addition, it offers the practical Fidlock magnetic strap buckle. The stylish bicycle helmet proves its advantages when riding at high speed or with electric support. Thanks to the large and foldable visor, the helmet offers protection against wind and annoying insects. Glasses wearers can wear their glasses under their visor. Simply pull the visor over the glasses and enjoy the free view. The Hyban+ is available with two different visor versions, either with clear or with tinted visor.

## Technologies

- ABS hard shell technology
- Zoom Evo Easy – fine adjustment system with a non-slip adjusting wheel
- Size adjustment by means of a half ring made from particularly hard-wearing and slightly malleable plastic for optimal stability and form fitting
- Highly impact-resistant, large-area visor to protect against airflow and insects
- Large, highly mounted and integrated LED tail light with 180° visibility
- Optimum ventilation for this helmet type with 13 air inlets and 5 air outlets
- Removable and washable padding with maximum wearing comfort
- Soft straps that are simple to fit thanks to practical strap adjusters
- Removable visor
