TELESCOPIC CEILING MOUNT (187 - 581 cm)

Get your cameras perfectly positioned!

This ceiling mount is a robust and durable solution for mounting a camera indoors or outdoors. The aluminum construction ensures high stability and, with its discreet white color, blends seamlessly into any environment. The extendable mount can be adjusted in height from 187 cm to 581 cm. This allows the position and distance of the camera from the ceiling to be adjusted to suit the individual mounting situation. The cable guide integrated into the bracket ensures a clean and professional installation, including optimum protection of the connection cable against moisture, damage, or tampering. This ceiling mount has a pendulum suspension for installation on sloping ceilings (can be fixed or loose).

The ceiling mount is an optional accessory for various camera installation boxes from the ABUS portfolio. Please note the load capacity of up to 4.5 kg.

Technologies

- Adjustable ceiling suspension rod (187 to 581 cm)
- Internal cable routing 3/4"
- Threaded end for direct attachment of an installation box
- Swinging suspension for compensation of sloping ceilings (can be fixed or loose)
- Max. load capacity of 4.5 kg
