Rear Light ACE Urban-I 4.0, Taipan, Hyban 3.0

MAGNETIC. STYLISH. POWERFUL.

This premium rear light for the Urban-I 4.0, Taipan and Hyban 3.0 perfectly combines safety and style.

The elegant light strip is discreetly attached to the rear of the helmet using magnets and clicked into place on the right - so it sits firmly and securely. The high-quality light optics with powerful LEDs and diffuser ensure uniform, glare-free light and a sophisticated look. Four light modes - Steady, Power, Pulse or Flash - adapt to any situation. Two integrated rechargeable batteries significantly extend the operating time: from at least 4.3 hours (Power) to 35 hours (Flash). USB-C makes charging easy. Weatherproof in accordance with IP44 certification, the rear light offers 180° visibility - especially in rain, twilight or darkness.

Technologies

- Magnetic Rear Light with USB-C charging connection: easily detachable and conveniently rechargeable for maximum flexibility
- 180° visibility: perfect for better visibility in the dark, at dusk and in bad weather
- Robust and weatherproof (IP44-certified): protected against dust and splash water, ideal for all weather conditions
- Various light modes: Steady, Power, Pulse or Flash selectable – depending on light conditions or to save battery capacity
- Premium features: two rechargeable batteries for extended operating times as well as powerful LEDs and diffuser for uniform, glare-free light distribution
- Operating time per mode: depending on the weather conditions, type of use and lighting mode, the available usage time of the light is at least 4.3 hours in Power mode and at least 35 hours in Flash mode
- Battery charging time for Rear Light: the charging time until the battery is fully charged is approx. 1.5 hours
