Tresor 6806C/85 black

COMBINES STYLE & COMFORT

Do you want to secure your bike quickly - without any annoying fiddling? Then the Tresor 6806C is made for you. The new 360° steel bolt engages securely in the lock body from any position. No alignment, no trial and error - simply plug in and you're done. Even in the dark.

The chain lock builds on the success of the proven Tresor 1385. Perfect for your commute to university, spontaneous city trips or a quick stop at the bakery, supermarket or café

Thanks to the number code, you don't need a key - ideal if you share your lock with others or frequently misplace things. The 2-component dials ensure that the numbers are always easy to read, even with daily use. The sturdy square chain made of hardened steel provides reliable protection against theft, while the textile sleeve protects your bike's paintwork.

And best of all: the colours make a stylish statement!

Whether classic in Black or trendy in Light Blue, Tec Grey, Rose Blush, Sage Green or even reflective Silver - the selection of colours offers the right lock for every style. And with its practical length of 85 cm, it is ideal for everyday use in the city. You can use it to securely attach your bike to posts, railings or bike racks.

And it remains uncomplicated during transport: the compact length makes it easy to wrap the lock around the seat post. Alternatively, it fits comfortably in your bag, rucksack or an ABUS frame bag.

Tresor 6806C - a lock that is as stylish as you are.

Tresor 6806C/85 black

Technologies

- 360° steel bolt ensures secure locking and can be inserted into the lock body from any position
- 6 mm square chain with textile sleeve to protect against damage to the paintwork
- The chain is made of specially hardened steel
- 2-component dials for long-lasting legibility of the digits
- Special scanning protection for increased security against unauthorised acquisition of the numerical code by tampering with the mechanism
- 4-digit numerical code can be set individually – this means up to 10,000 number combinations are possible
- Harmonious design thanks to the slim lock body made of durable material
- The "reflective" variant ensures increased visibility thanks to the reflective textile coating

Operation and use

- Good protection for two-wheelers with medium theft risk
- Quick and intuitive locking: inserting the completely round bolt into the lock body, without prior alignment, makes locking easier, even in the dark

Tips

- Whether modern and stylish or subdued – the lock is available in different colours (light blue, tec grey, rose blush, sage green, reflective, black)
- The combination lock is particularly suitable for use by several people – there is no need to hand over keys

Variants

- Colours: Light blue, tec grey, rose blush, sage green, reflective, black
