

YARNIT™ 4004K/110 sand stone

TEXTILE MEETS STEEL - STYLISHLY PROTECTED

Do you want protection for your bike, but in style? Then the YARNIT 4004K is your new favourite lock.

The textile lock in a trendy knitted look combines high-quality ABUS security technology with urban design: the stylish woven structure is interspersed with a robust steel cable and surrounds a robust hardened steel chain - soft on the outside, strong at the core.

Whether wrapped around the frame, stowed loosely in a bag or in a rucksack, the YARNIT 4004K is light, quiet and gentle on the paintwork. Like a textile rope, it hugs every shape and makes locking up your bike child's play - and even quicker thanks to keyless locking. With its anti-picking cylinder, the lock with ABUS security level 7 also ensures that your bike stays where it belongs.

Theft protection has never looked so good.

Technologies

- Stylish: textile fibres in different colour shades are woven around the lock chain, creating a fashionable, rattle-free and strong knitted structure
- Secure: textile elements are interspersed with a steel cable – together with the hardened metal chain inside the lock, the lock offers solid protection against attacks with various tools
- Lightweight: perfect for all those who want a lightweight chain lock
- Resistant: with an overall diameter of 24 mm, the lock with security level 7 offers good protection in cases where there is a medium theft risk

YARNIT™ 4004K/110 sand stone

Seite 2 von 2

- Practical: locks automatically – simply insert the locking bolt into the lock body, two keys are included in the scope of delivery for unlocking the lock
- Gentle on paintwork: the textile surface prevents scratches on the bike frame
- Picking-resistant: locking mechanism with anti-picking cylinder for greater protection against tampering with the cylinder

Operation and use

- Flexible handling: highly flexible textile lock can be easily shaped as required and enables convenient connection to bulky objects – even in hard-to-reach places
- Solid theft protection: recommended for securing good bikes and e-scooters – on the road or when travelling
- Convenient transport: no rattling thanks to the textile coating – simply wrap the chain lock tightly around the bike frame or put it in your rucksack, no holder required
- Different lengths: the chain lock is available in several lengths – the longer the lock chain, the greater the locking circumference
- Family-friendly use: combination of several YARNIT™ 4004K locks for even greater range so that several bikes can be conveniently locked and secured together
