

SAFE CENTER

Additional security lock for double casement windows made of aluminium, wood or plastic with middle bar.

Whether they are made of aluminium, wood or plastic, your double-hung windows should always be secured against break-ins. This additional security lock does the job reliably. Also for narrow assembly conditions. The solid turning bolt of the additional security lock locks automatically, a key is only needed to open it. The security device is mounted directly on the frame, so there is no need to drill into the window wings.

Technologies

- Fitting on the frame only between the windows
- Strong hook-bolt lock
- Incl. two keys
- Easy to use

Operation and use

- For inward opening double casement windows and patio doors with middle bar
- Lock with the hook-bolt lock, open with a key
- Can be supplied keyed alike with a variety of other ABUS products
- Suitable for all surface materials, such as wood, PVC and aluminium
