2410 white

WINDOW LOCK WITH TURNING BOLT

Practical assembly, without drilling into the window wing:

The ABUS 2410 additional window lock has a turning bolt and is only mounted on the window frame thanks to this. To lock, the bolt is simply swung onto the window wing; the key is required to open the security device. The additional lock can be used on the handle side of single-leaf windows made of aluminium, wood or plastic. You should secure the hinge side separately.

Technologies

- Fitting on the frame only
- Strong hook-bolt lock
- Incl. two keys

Operation and use

- For inward opening windows and patio doors
- Lock with the hook-bolt lock, open with a key
- Can be supplied keyed alike with a variety of other ABUS products
- Suitable for all surface materials, such as wood, PVC and aluminium

Variants

- Finishes: brown, white
