

FOR THE HIGHEST SECURITY REQUIREMENTS

The ABUS GRANIT™ 37/55 S&S meets the highest security requirements for a padlock, even under extreme weather conditions.

Like all padlocks in the ABUS GRANIT™ series, the 37/55 Sea & Snow also offers maximum security against manipulation. The high-quality ABUS Plus disc cylinder, with more than 250,000 different key codes, provides the lock with a high level of protection against intelligent break-in attempts and picking. The special corrosion protection makes this padlock the ideal companion for regions with particularly harsh weather conditions and for outdoor use at sea or in the snow.

Technologies

- Highest levels of quality assurance
- ABUS Plus disc cylinder: maximum precision for securing against intelligent attempts to break open, up to 250,000 different key variations
- Double ball locking
- Shackle and body made from hardened alloy steel
- Black Granit protection for even more corrosion resistance
- RK: cylinder can be re-keyed to match an existing key
- Two keys are supplied with the lock

Operation and use

- Securing larger valuable objects

- Securing objects with very high risk of theft
- Special insurance company requirements

Tips

- You can order several keyed-alike locks. That means that a single key or mechanism can be used for several locks.

Variants

- 36/55, 36/55HB50, 37/55, 37/55HB50, 37RK/55, 37RK/60, 37/60HB75
