

# Double cylinder TI11ST 25/25

Seite 1 von 2

## FOR GLASS AND METAL DOORS:

Are you looking for secure door cylinders for your glass and metal doors?

You can rely on our TI11ST door cylinders. They are available in 3- and 4-pin versions. The special top pins and the paracentric key profile provide effective picking and manipulation resistance. The use of high-quality materials make the cylinders particularly durable.

## Technologies

- Mushroom-headed counter pins provide effective resistance against picking or manipulation
- The paracentric key profile prevents insertion of larger tools
- High-quality materials: long lifespan thanks to wear-resistant materials
- TI11ST 21/21: 3-pin cylinder
- TI11ST 25/25: 4-pin cylinder
- Three keys included

## Operation and use

- Suitable for thin front doors and metal doors

## Variants

- Cylinder lengths: 21/21, 25/25
