FOR DEMANDING TRAILS

The CliffHanger is the flagship trail model in the ABUS MTB series. The MTB helmet offers reliable protection when riding an enduro bike up and down steep hills.

Lighter, better ventilated and with an adjustable TriVider webbing spreader - the CliffHanger scores with these features. The special MTB adjustment system also ensures that the helmet sits comfortably and firmly on the head when rattling through the wildest of rock gardens. The inner EPS hard foam shell is foamed into a three-part outer shell, making a lightweight and sturdy helmet. ActiCage is additional reinforcement for the helmet structure that also creates space for large vents. With the CliffHanger, we have succeeded in developing a helmet that offers virtually perfect conditions for high speeds and demanding trails.

With QUIN technology integrated into the helmet, ABUS offers even more safety. The system's accelerometer enables it to detect falls and inform emergency contacts. The injured person's location is even sent via smartphone.

Technologies

- Lower edge protection: polycarbonate (PC) outer shell covers the lower edge of the helmet and protects against scratches, impacts and signs of wear and tear
- Ponytail Fit: thanks to the opening in the height-adjustable adjustment system, the helmet is also suitable for long hairstyles such as ponytails, buns, or braids
- Height-adjustable peak: the position of the peak can be adjusted thanks to locking positions to provide optimum protection from hanging branches and sunlight
- Zoom™ Spin adjustment system: rotary wheel at the back of the head for individual adjustment of the helmet to

the head size

- Trivider™: particularly flat divider with fixed positioning of the straps to prevent unintentional adjustment
- Comfort Pads: soft padded inserts for optimum comfort, attached to the helmet with Velcro
- Removable, washable pads: can be removed and washed by hand or replaced if necessary
- Magnetic buckle: the straps are fitted with a high-quality, magnetic FIDLOCK buckle to enable the chin buckle to be opened with one hand, even when wearing gloves
- In-mould process: production process in which the inner cushioning material made of expanded polystyrene (EPS) is foamed directly into the outer shell made of polycarbonate (PC) – this creates a durable and robust connection

Technical data - CliffHanger velvet black L lose

Chin buckle	Magnetic buckle
Finish	matt
Forced Air Cooling	No
Fullface	No
Head size	57-61 cm
Headring	Half ring
Helmet type	MTB helmet
Light	No
Lower edge	Yes
Mips	No
Peak	height adjustable peak
Ponytail Fit	Yes
Removable pads	Yes
Size	L
Suitable for	Adults
Visor	No
Washable pads	Yes
Weight	365 g
backlight	No
color of facets	black
design color	velvet black
EAN	4003318685378
