

THE CLASSIC MADE OF BRASS

Our brass padlock 55 is one of our classic locks for numerous applications.

With the brass lock 55, the lock body is made of solid brass. The hardened steel shackle and the internal parts made of corrosion-free materials ensure the longevity of the lock. Inside, a precision pin cylinder with mushroom head pins is used. The exterior is protected from wind and weather. Locking is done without a key by pushing down the shackle. The application possibilities are wide-ranging: You can use it, for example, to secure loop cables or to secure doors, gates, cupboards, lockers, tool boxes, cellar windows, sheds, switchgear or barriers.

Technologies

- Body made of solid brass
- Inner components made of non-corrosive materials
