THE DIGITAL KEY FOR ELECTRONIC LOCKING SYSTEMS & EMA SYSTEMS.

Contactless locking medium

The battery-free RFID key fob is the locking medium for ABUS access control systems and other ABUS security systems with MIFARE® DESFire® technology.

Universally applicable

: The RFID transponder can be used as a locking medium for wAppLoxx Pro, wAppLoxx Pro Plus and TECTIQ systems. (Please note: wAppLoxx Cylinders of Generation 1 do not work with MIFARE® DESFire® EV3). It also allows you to operate ABUS security systems, such as the Secoris intruder alarm system. Thanks to its robust design, the key fob is suitable for indoor and outdoor use (IP64). As a passive transponder, it does not require a battery.

Secure ease of use

Thanks to 13.56 MHz RFID technology, these ABUS systems can be operated conveniently, securely readout-protected and contactless. The pre-programmed ABUS "security application" also guarantees maximum protection against copying and tampering based on MIFARE® DESFire® EV3 8K technology.

Desired colour variant?

The key fob is available in green, blue, red, black or white.

Technologies

- Attractive RFID key fob with stainless steel mounting bracket (MIFARE® DESFire® EV3 8K)
- Contactless opening of all ABUS WLX Pro and TECTIQ door components (cylinders, fittings, wall readers, etc.)
- Operation of other ABUS security systems, e.g. Secoris burglar alarm system
- Maximum copy and tamper protection with pre-programmed ABUS security application
