THE URBAN STATEMENT

Urban safety taken to the next level: the Hyban 3.0 LR sets new standards. With a robust ABS lightweight shell, it offers optimum head protection - even when things get more intense on a bike, skateboard or scooter in everyday life.

Rough in character, clear in design: this helmet is pure and unadulterated - reduced to what really counts. Whether on a bike in traffic, on a BMX in the half-pipe, on a skateboard in the skate park or on a scooter through the city: the Hyban 3.0 LR stands for an authentic urban look and reliable protection. No superfluous details, no gimmicks - simple, functional and stylish.

Comfort meets function

The new ABS lightweight shell is significantly lighter than classic hard shells and still offers certified safety at the highest possible level. 11 air vents provide noticeable ventilation, even on hot days or during sporty sessions. Bug mesh on the front air inlets keeps flies and other insects out without impairing air circulation

The magnetic FIDLOCK fastener allows you to open the chin strap effortlessly and with one hand, even when wearing gloves. Helmet on, helmet off - ready for the next move in seconds.

Visible. Flexible. Upgradeable.

The reflective light cover on the rear of the helmet increases your visibility in traffic and covers the holder for the optional rear light with a form-fit.

There are two variants to choose from for the upgrade:

- Rear light with 10 LEDs and two light modes
- ACE rear light with 30 LEDs and four light modes

Thanks to the magnetic holder, you can easily remove the rear light, charge it via USB-C cable and fit it again just as easily.

Made for every style

Hyban 3.0 LR off white M

Seite 2 von 3

The clever cut-out in the height-adjustable adjustment system ensures an optimum fit, even with long hairstyles such as ponytails, buns or plaits.

In matt black, the Hyban 3.0 LR looks striking and powerful, in clear off-white pure and modern. Two colours, one statement: robustly built, clear design, strikingly urban - always safe.

Ready for your next ride?

Technologies

- Reflector Sticker: for better visibility in the dark
- Reflective light cover: conceals the light holder for the optional Rear Light and at the same time ensures visibility and a form-fitting helmet design
- Rechargeable, magnetic Rear Light (optional): the separately available light for better visibility is attached to the back of the helmet using magnets and can be charged with a USB-C charging cable
- Trivider™: particularly flat divider with fixed positioning of the straps to prevent unintentional adjustment
- Comfort Pads: soft padded inserts for optimum comfort, attached to the helmet with Velcro
- Removable, washable pads: can be removed and washed by hand or replaced if necessary
- Magnetic buckle: the straps are fitted with a high-quality, magnetic FIDLOCK buckle to enable the chin buckle to be opened with one hand, even when wearing gloves
- Hard shell application: production process in which the outer, injection-moulded shell made of hard plastic is placed over the shock-absorbing rigid foam, thus ensuring a high level of robustness and protection
- EPS + ABS lightweight shell: combination of EPS and thin-walled ABS shell – enables a more robust construction with the same weight

Operation and use

- Ponytail Fit: thanks to the opening in the height-adjustable adjustment system, the helmet is also suitable for long hairstyles such as ponytails, buns, or braids
- Bug Mesh: keeps flies and other bugs off your head without messing with the helmet's ventilation
- Zoom™ Spin adjustment system: rotary wheel at the back of the head for individual adjustment of the helmet to the head size
