YOU AND I - EVERY GENERATION

Modern design, comfortable to wear and equipped with a bright rear light: the Youn-I 3.0 appeals to all generations - from kids to adults - whether on the way to school, university, office or the next meeting point in the city centre.

It's not every day that teenagers and parents agree on style. The Youn-I 3.0 does just that: with a wide range of colours from subtle tones to child-friendly patterns and a clear, modern shape that suits any urban look.

The helmet also impresses with its high level of comfort and customised fit - also suitable for narrower head shapes: thanks to the precise adjustment system and soft comfort padding, the helmet sits comfortably and securely on the head. Another practical feature is the magnetic chin buckle, which is easy to open and close in everyday life.

A reflective sticker and the rear light, which is easy to operate with a rubberised button, ensure better visibility in road traffic. Thanks to the external charging port, the light can remain on the helmet or optionally be removed - simply connect a USB-C cable and fully charge in around an hour.

The Youn-I 3.0 is uncomplicated, stylish and safe: your helmet for every day.

Technologies

- Ponytail Fit: thanks to the opening in the height-adjustable adjustment system, the helmet is also suitable for long hairstyles such as ponytails, buns, or braids
- Reflector Sticker: for better visibility in the dark
- Bug Mesh: keeps flies and other bugs off your head without messing with the helmet's ventilation

Youn-I 3.0 powder blue M

- Rechargeable, clip-on rear light: attaches to the back of the helmet and ensures greater visibility – can be charged using a USB-C charging cable
- IP44: protection class that certifies protection against solid foreign bodies larger than 1 mm and against splash water for electronic products such as lights
- Four different light modes (Rear Light): Steady, Power, Pulse and Flash selectable – corresponding to light and weather conditions
- Operating time per mode in h (min.): depending on the weather conditions and type of use, the available usage time of the light is at least 4 hours in continuous mode and in flashing mode at least 29 hours
- Battery charging time (light): the charging time until the battery is fully charged is approximately 1.2 hours
- Zoom™ Spin adjustment system: rotary wheel at the back of the head for individual adjustment of the helmet to the head size
- Flap Divider™: strap divider for individual adjustment of the straps below the ears – with clamp fastener to fix the set position
- Comfort Pads: soft padded inserts for optimum comfort, attached to the helmet with Velcro
- Removable, washable pads: can be removed and washed by hand or replaced if necessary
- Magnetic buckle: the straps are fitted with a high-quality, magnetic FIDLOCK buckle to enable the chin buckle to be opened with one hand, even when wearing gloves
- In-mould process: production process in which the inner cushioning material made of expanded polystyrene (EPS) is foamed directly into the outer shell made of polycarbonate (PC) – this creates a durable and robust connection
