MoRaine MIPS velvet black M

More safety for your next off-road adventure

Whether forest paths, gravel tracks or trails - the MoRaine MIPS is a reliable companion on any off-road ride.

The integrated MIPS system offers additional safety and can reduce rotational forces in the event of an impact. At the same time, the helmet's comfortable fit and low weight make it very comfortable to wear, even on longer rides. The practical peak protects you from low sun, branches and glare so that you can concentrate fully on the trail. A matching light for the helmet is available as an option for even better visibility.

Technologies

- Ponytail Fit: thanks to the opening in the height-adjustable adjustment system, the helmet is also suitable for long hairstyles such as ponytails, buns, or braids
- Mips layer: thin plastic shell located between the inner padding and the energy-absorbing shell of the helmet to counteract rotational forces in the event of a fall
- Rechargeable, plug-in rear light (optional): the separately available light for better visibility is plugged into the back of the helmet and can be charged using a USB-C charging cable
- Breakaway Visor: high-quality peak to protect against sunlight and hanging branches – thanks to special technology, it can detach in the event of a fall to minimise strain on the neck
- Zoom™ Spin adjustment system: rotary wheel at the back of the head for individual adjustment of the helmet to the head size
- Flap Divider™: strap divider for individual adjustment of the straps below the ears – with clamp fastener to fix the set position
- Comfort Pads: soft padded inserts for optimum comfort, attached to the helmet with Velcro

MoRaine MIPS velvet black M

- Removable, washable pads: can be removed and washed by hand or replaced if necessary
- Push-in buckle: for safe and practical handling, the straps are fitted with a classic chin lock (three-pronged connection) for opening and closing
- In-mould process: production process in which the inner cushioning material made of expanded polystyrene (EPS) is foamed directly into the outer shell made of polycarbonate (PC) – this creates a durable and robust connection

Technical data - MoRaine MIPS velvet black M
