P603 #USA

SECURE COMPRESSED AIR CONNECTIONS AGAINST UNINTENTIONAL USE

With the P603 pneumatic lockout device.

It is plugged onto the pneumatic connection and secured with a padlock. This way, the connection does not fit on any coupling and the maintainer can work safely.

Technologies

- Fiber-glass reinforced nylon: long-lasting, robust and non-conductive
- 3 different connections for most common compressed air couplings with up to 15 mm outside diameter
- The hole in the middle can be used to attach and store the lockout device directly at the connection
- Holds 1 padlock with 1/4" and 1 padlock with 9/32" shackle diameter per connection

Operation and use

- Block access to compressed air connections during maintenance

Variants

- Colour: Red
