1850/185

Flexibly secured

The steel cable lock 1850 is flexible and versatile.

With a length of 185 centimetres, the spiral cable from ABUS offers generous scope for securing your valuables. The motorbike and bicycle can be easily attached to the fence and lamppost. The helmet and other accessories also find a safe place. Another plus point: When folded, the 1850 is space-saving and easy to transport.

To secure your valuables flexibly, the two loop ends of the ABUS 1850 are connected with a separate shackle or padlock. Whether as a stand-alone safeguard or as a supplement to your existing shackle lock, padlock or frame lock - it can be used to secure bulky and multiple objects from theft or unauthorised use at the same time.

The synthetic coating of the steel cable protects surfaces from paint damage and scratches both during connection and transportation. The steel cable is also suitable for protecting garden tools, garden furniture, surfboards, ladders and other things around the garden, home, leisure and work from theft.

Technologies

- High quality steel cable with two loop ends
- Synthetic coating to prevent damage to the bicycle‘s paintwork

Operation and use

- Additional security item to secure components
