GRANIT™ Victory XPlus 68 black yellow roll up

AN ALL-ROUND, SECURE OPTION

You can protect your motorbike against theft thanks to the GRANIT™ Victory XPlus 68 brake disc lock. It all starts with the design.

Its rounded form makes it difficult for thieves to get a hold on the GRANIT™ Victory XPlus 68. The 14mm locking bolt made from extra-hardened steel makes a clear statement about who your bike belongs to (also available with a half bolt head where the distance to the fork is particularly small). An ABUS XPlus cylinder offers protection against lock-picking attacks. And because chaining it up is better than just locking it up, the GRANIT™ Victory XPlus 68 is also available as a chain combination.

A Memory Cable reminds you to remove the GRANIT™ Victory XPlus 68 before you set off.

Technologies

- 14 mm steel bolt
- Excellent grip thanks to the rubberised ring
- The bolt, lock body and supporting elements of the locking mechanism are made of specially hardened steel
- The round shape hinders the use of opening tools
- ABUS XPlus cylinder for exceptionally high levels of protection against manipulation attempts such as picking
- Two keys are included in the scope of delivery
- ABUS Code Card for additional and replacement keys
- A Memory Cable that acts as a reminder against accidentally driving away with the motorbike still locked is included in the scope of delivery. With the “Roll Up” version, it is integrated into the bolt

GRANIT™ Victory XPlus 68 black yellow roll up

Operation and use

- Great protection where there is a high risk of theft
- Recommended for protecting high-value motorbikes

Tips

- You can order several one-key-fits-all locks. That means that a single key or mechanism can be used for several locks
- Brake disc locks are a very compact category of motorbike locks and are therefore easy to transport
- To increase security during longer parking times, you should lock your motorbike to a fixed object with an additional lock
- This lock is also available in a chain combination
- For very narrow spaces between bolt and fork, a version with a half bolt head is available
