Youn-I ACE rosé gold M

DESIGN MEETS FUNCTIONALITY

A modern bicycle helmet should be fashionable, practical and above all safe. The Youn-I Ace from ABUS meets all these requirements.

First and foremost, a bicycle helmet must protect the head safely and reliably in the event of a fall. But the appearance also plays an important role in the choice of the helmet. The Youn-I Ace fulfils the need for design and safety.

The city helmet convinces with a simple, urban and fashion-conscious appearance and fits perfectly to the modern design of stylish city bikes. Different colour combinations - from simple one-toned to modern patterned - offer a wide selection for every taste. The ideal everyday helmet for use in the city and just the right accessory for style-oriented cyclists.

Technologies

- Reflector Sticker: for better visibility in the dark
- Bug Mesh: keeps flies and other bugs off your head without messing with the helmet's ventilation
- Clip-on Rear Light: attaches to the back of the helmet and ensures greater visibility
- Two different light modes (Rear Light): Steady for continuous light and Flash for brightly flashing light in at short intervals
- Operating time per mode in h (min.): depending on the weather conditions and type of use, the available usage time of the light is at least 12 hours in continuous mode and in flashing mode at least 24 hours
- Clip on peak: removable peak attached with pins to protect against sunlight

Youn-I ACE rosé gold M

- Zoom™ Spin adjustment system: rotary wheel at the back of the head for individual adjustment of the helmet to the head size
- Flap Divider™: strap divider for individual adjustment of the straps below the ears – with clamp fastener to fix the set position
- Comfort Pads: soft padded inserts for optimum comfort, attached to the helmet with Velcro
- Removable, washable pads: can be removed and washed by hand or replaced if necessary
- Push-in buckle: for safe and practical handling, the straps are fitted with a classic chin lock (three-pronged connection) for opening and closing
- In-mould process: production process in which the inner cushioning material made of expanded polystyrene (EPS) is foamed directly into the outer shell made of polycarbonate (PC) – this creates a durable and robust connection
