

TRUST THE ORIGINAL

Our Diskus® 26 is an extremely robust padlock for securing trucks, vans, cellar doors and factory gates.

Our padlock Diskus® 26 consists of a solid steel body. The solid interior structure offers even more safety. The cylinder is protected against drilling and pulling attempts. The seam that holds the two stainless steel shells together is also welded by hand on the Diskus® 26. This means that the two halves cannot be easily broken apart and the Diskus® 26 secures your valuables and objects very well. Even more break-in protection = even more security!

Technologies

- Heavy-duty stainless steel body
- Massive inner base for enhanced security
- Additional protection against sawing
- Shackle made from special alloy hardened steel
- Drill and pull resistant cylinder
- Diskus® Deep-Welding Technology - maximum strength
- Original Diskus® design: 360° protection
- Key retaining: key is needed for locking (lock retains key until locked)
- Made in Germany

Operation and use

- To secure valuables/goods of greater value or at a high risk of theft
- To secure lorries, transporters, cellar doors, factory gates, etc.

- Ideally used with ABUS Diskus® Hasp 140: virtually impossible to attack shackle

Variants

- Sizes: 70, 80, 90 mm

Technical data - Diskus® 26/70

Depth e	30 mm
Height f	70 mm
