

UNIVERSAL LINKAGE

Window bar lock, security for patio doors and double casement windows.

Narrowly constructed, quickly mounted: Secure your patio and double doors with this bar lock. The two strong securing points secure at the top and bottom. The lock withstands a pressure of over one tonne at both points. The additional window lock is operated by means of a lockable window handle: If the window is closed, the locking bars are also extended.

Technologies

- VdS and DIN-certified
- Resists more than one ton static load per securing point
- Two locking points (top and bottom)
- The system and the window is locked by the window handle
- Appropriate bar sets have to be ordered separately
- Incl. two keys

Operation and use

- Two-point locking for inward opening windows and patio doors
- Modular construction system up to 3.10 m, if handle is centred on the frame
- Also for double windows with or without a rebate, with 7 mm square bolt
- Dead bolting with quality push-button cylinder
- Unlocking with the key only necessary after dead bolting

- Can be supplied keyed alike with a variety of other ABUS products
- Suitable for all surface materials, such as wood, PVC and aluminium
- Universal DIN-right and DIN-left mounting

Variants

- Finishes: B, W
- Length of bars: 75 cm / 118 cm / 150 cm
- Accessories: Floor strike plate BSB550, strike plate for double casement windows DSB550 B/W, ground socket BH550
- Alarmed version also available
