

OPENS ONLY WITH KEY

Protect your windows with this lockable handle.

Whether for the safety of your children or for protection against burglars: This lockable window handle makes your windows more secure. The window handle replaces the conventional handle of aluminium, plastic or wooden windows. Its push button cylinder with reversible key can be reliably locked. Opening the window is then only possible by means of a key.

Technologies

- 7 mm square bolt, distance of screws 43 mm
- Push button cylinder with reversible key
- Incl. one key, triples incl. three keys

Operation and use

- Can be used on standard inward opening windows in place of the window handle
- Also suitable as a child-proof lock
- The handle is locked by pushing in the cylinder, open with the key

Variants

- Finishes: brown, white, silver
-
