

INDIVIDUALLY INSCRIBABLE

Our padlock T65AL myLove has an individually inscribable synthetic coating.

The love lock in a different look: As with our LoveLocks, the lock body of the T65AL myLove is also made of high-quality aluminium. Unlike conventional love locks, however, the padlocks in the myLove series are additionally covered with a synthetic coating. Engraving is therefore not possible, but the locks can be individually and permanently inscribed with a waterproof felt-tip pen. You can also reliably secure your valuables in cupboards or lockers with this padlock - and also label them with your name or another designation. The product is locked by simply pressing down the bracket.

Technologies

- High-quality printed vinyl casing to prevent damage
- Individual inscriptions possible for easy identification
- Inner components made from non-corrosive materials
- Special alloy steel shackle with NANO PROTECT™ coating
- Precision pin tumbler cylinder
- Vinyl casing with different casings: heart and beach
- Supplied with two keys

Operation and use

- To secure valuables/goods of medium value or at an average risk of theft
- Also ideal to individually secure lockers and wardrobes (e.g. in fitness centres), for cellar sheds, tool boxes, etc.

Variants

- Size: 40 mm
