

Wireless remote control HomeTec Pro CFF3000

Seite 1 von 2

CHILD'S PLAY AT THE TOUCH OF A BUTTON

Making life easier: Add this remote control to your ABUS HomeTec Pro wireless door lock drive.

Very ease to use: With the ABUS CFF 3000 radio remote control, wireless door locks of the HomeTec Pro series can be opened and closed very easily and the status of the drive can be checked. With the possibility of programming several remote controls for one door lock, each member of your family can use their own.

Technologies

- Status query of the central unit possible
- Controlling of up to two HomeTec Pro at the same time possible
- Maximum security due to AES-128 bit encryption
- Power supply by battery (1 x 3V CR2032 button cell battery included)

Operation and use

- For extended use and additional configuration of the HomeTec Pro central unit
- Maximum user comfort: lock/unlock and open the door at the touch of a button

Variants

- Colour: silver
