SW1 white

FIXED TO THE FRAME

Universal additional lock for mounting on the window frame.

You want to increase the security of your windows made of aluminium, wood or plastic in an uncomplicated way? This universal additional security lock makes it easy for you. The additional lock is mounted at the very top of the window frame without drilling into the window wing. Once in use, the solid steel bolt consistently secures against burglars. The lock engages automatically and can be opened conveniently without a key.

Technologies

- Solid steel bolt
- Height: 52 mm
- No drilling of window or door panel
- Fitting on the frame only
- Solid fixing and robust construction

Operation and use

- Universal applications
- Self-locking
