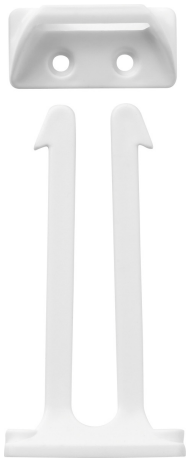
Drawer lock JC4100A SINA



THIS DRAWER STAYS CLOSED

Our SINA drawer lock discreetly locks from the inside and protects your tiny tot

The things you can find in drawers! Don't you think? But their offspring usually always do. This is not a bad thing as long as you keep unbreakable things in drawers. But as soon as you store cleaning products, medicines, scissors, knives or other utensils that are not child-friendly, you should protect your tiny tot from the contents. Our SINA drawer lock is discreetly screwed to the drawer door from the inside and ensures that it stays closed.

Technologies

- Simple opening by pressing the safety catch together
- Discreet, inconspicuous design
- Installation: screw in from the inside. Included in the scope of delivery: screws
- Scope of delivery: 4 pieces

Operation and use

- Locks cupboards and drawers, for example, those containing dangerous substances (medicines, cleaning agents and more)
- For drawers and cupboards
