

Bed cover holder JC1300 JANITA

Seite 1 von 2

BED COVER: HOLD ON!

Simply clip it on and attach it to the lattice bar, for example.

Kick, kick, and bang, the blanket is gone: Younger children in particular move a lot during sleep. The bed covers should always be within reach so your child doesn't get cold.

Our bedding clip JANITA gently holds the blanket.

Technologies

- For stanchions up to 18 millimetres
- High-quality plastic: painted surfaces are undamaged
- Universal use – fits all current children's beds
- Easy to fit

Operation and use

- Stops children from losing their bed covers when asleep
- For thin covers/sheets
