

Z-Wave HomeTec Pro CFA3010 silver

SMART AND SAFE

Convenient unlocking via app. This radio door lock drive makes it possible.

Nowadays, a large number of things in the home can already be controlled via app. If you want to lock and unlock your doors with your smartphone, that works too. All it takes is an internet connection to use this product from anywhere. The maintenance-free and battery-operated drive can be mounted on the inside of your door in just a few simple steps. Wiring is not necessary. The emergency feature ensures that the door can still be opened with a conventional key.
