B810 Permit Redbox™ incl. wall bracket

PERMIT-TO-WORK TAKEN FURTHER

Standard procedures for safely switching off systems within businesses often involve permit-to-work documentation.

The B810 Permit Redbox™ allows you to integrate these documents as well as storing machine and system locks. It combines precision systems protection with the necessary protection for your permit in a large, lockable display window. For more safety and transparency in maintenance work.

Technologies

- Stable box made of powder-coated metal sheet
- Large, lockable front pane to display the dedicated work permit notes (A4 format)
- With 20 insertion holes for personal LOTO locks plus additional 3 for authorized persons
- Large storage space with hook rails to store up to 24 machine padlocks
- With carrying handle for mobile use
- With enclosed wall-bracket for stationary use of the box
- Inside with quick-release-button to optionally fix the box on the wall-bracket
- All around with punched holes for better light incidence and insight
- Side with insertion slot for keys with key tag

Operation and use

- To coordinate group lockout procedures in combination with permit-to-work systems
- Integration of work permits to better inform the persons involved
- Increased security by locking the work permit note until the end of all work
