HOMETEC PRO BLUETOOTH®

**FROM HERE.
FROM THERE.
FROM ANYWHERE.**

Keyless. Lock and unlock via app. Shareable.

 HomeTec Pro™

abus.com

YOUR SMARTPHONE BECOMES THE KEY TO THE FRONT DOOR

It only takes a few steps to install the HomeTec Pro Bluetooth® and make your front door smart and secure!

Everything via app

Conveniently open and lock your front door with the HomeTec Pro app on your smartphone. No key required.

Send family members or friends an invitation and turn their smartphones into keys as well, either permanently or just for a certain timeframe.

You can set the times at which certain people should have access. (e.g. the engineer: Tuesday from 8 am to 2 pm.) Or use the app to specify that HomeTec Pro should automatically lock your front door every night starting at 11 pm.

DRIVE AND COMPONENTS

If your smartphone isn't within reach, you can also conveniently open your door with the keypad, the remote control or simply a fingerprint.

Bluetooth® door lock actuator CFA3100

Is easily clipped, adhered or screwed onto the locking cylinder from the inside.

Bluetooth® remote control CFF3100

Open and lock with the touch of a button.

Bluetooth® keypad CFT3100

Is mounted on the house wall for opening and locking the doors by entering a code, even if you don't have a smartphone within reach.

Bluetooth® fingerprint scanner CFS3100

Is mounted on the house wall for opening and locking the doors with a fingerprint.

Bluetooth® Wi-Fi bridge CFW3100

Connects HomeTec Pro to the home network and allows you to access it online while on the go.

The mechanical locking function with the front door key is maintained at all times.
