

24 VAC Outdoor Power Supply

Art.-Nr. TV8379

Seite 1 von 1

With the outdoor power supply, you provide the necessary voltage to all cameras and CCTV components that are installed outdoors. The output current (nominal current) is 4 A. Pre-cut perforations on the side of the housing enable customized openings for tidy wiring. The 4 outputs are individually fused and protected from overload and short-circuit.

Technologies

- 24 V AC, 4 × 1 A power supply for outdoor use
- Electronic overload protection
- 4 fused outputs
- Protection class IP66

Technical data - 24 VAC Outdoor Power Supply

Dimensions	(W x H x D) 180 x 182 x 90 mm
Fuse protection outputs	4 x 1 A
Height	182 mm
IP protection class	66
Input voltage DC	230 V
Length	90 mm
Net weight	1,95 kg
Operating current	4.000 mA
Output voltage AC	24 V
Width	180 mm
