

1/3" Vario Lens 5 – 50 mm DC Aperture

Art.-Nr. TV8573

Seite 1 von 1

The lens is a very important component of your camera. It regulates the incidence of light on the camera's CCD and thus ensures an optimal exposure of your pictures. All lenses have a standard mounting thread. You can easily mount CS-Mount lenses on any camera. The aspheric lenses ensure especially high-quality pictures and prevent poor focusing at the edges. The incidence of light through the iris is controlled by the camera's auto-iris function. The lens is connected to the camera with a DC plug. The distinctive features of this lenses are a different viewing angle and a different focal length. (The greater the focal length, the narrower the viewing angle and the nearer you can zoom in on the image.)

Technologies

- Auto iris lens
- Focal length 5.0 - 50.0 mm
- Aperture: F1.3
- Horizontal viewing angle: 52.0° - 6.0°

Technical data - 1/3" Vario Lens 5 – 50 mm DC Aperture

Aperture	F 1.3
Aspherically ground	Yes
Compatible with IR light	No
Dimensions	(HxD) 58.0x43.5 mm
Focal length	5,0 - 50,0 mm
Format	1/3
Height	58 mm
Iris	Auto-Iris
Net weight	0,125 kg
Thread	CS
Width	43,5 mm
