

Plug-in Power Supply "International"

Art.-Nr. TVAC35000

Seite 1 von 1

The plug-in power supply "International" (230 V AC / 12 V DC, 1.5 A) supplies electricity to your video components. If you want to install mobile video surveillance abroad, e.g. when on holiday or attending a trade fair, you need a flexible power supply. In this case, the plug-in power supply "International" with the 4 major plug variants is the right choice for you.

Technologies

- Flexible switching power supply for international use
- 4 different plug adapters (EU, AUS, UK, US)
- Output voltage 12 V DC with 1.5 A

Technical data - Plug-in Power Supply "International"

Dimensions	(W x H x D) 43.5 x 74.0 x 35.5 mm
Height	74 mm
Input voltage AC	110 – 240 V
Length	36 mm
Max. operating temperature	50 °C
Min. operating temperature	0 °C
Net weight	0,163 kg
Operating current	1.500 mA
Output voltage DC	12 V
PSTI conformity required	No
Width	44 mm
