

2 m CAT 5 cable

Art.-Nr. TVAC40810

Seite 1 von 1

This network cable is used to connect your network camera e.g. to a router or PC. The cable with a twisted pair of wires (twisted pair cable) is available in different categories. Category 5 (CAT5) is used for wiring IP camera and computer networks, such as fast ethernet. Thanks to this, high data transfer speeds of 100 MBit/s are guaranteed. The CAT5 network cable is available in a length of 20 m (TVAC40850), 10 m (TVAC40840), 5 m (TVAC40830), 3 m (TVAC40820), 2 m (TVAC40810) and 1 m (TVAC40800).

Technologies

- To connect network cameras to e.g. routers and PCs
- RJ45 plug incl. anti-kink sleeve
- Use in multimedia networks and telephone systems
- Suitable for use with ABUS IP cameras
- 8-pin RJ45 connections
- Length 2m

Technical data - 2 m CAT 5 cable

Cable length	2 m
Cable type	Cat5e
Connections	8-pin RJ45
Housing material	PVC
Insulation	HDPE
Intended use	indoors
Max. operating temperature	60 °C
Min. operating temperature	-10 °C
Outer diameter	5,2 mm
