Art.-Nr. TVAC50030

Seite 1 von 2

The 22" TFT color monitor of the Profiline series has been especially designed for the high demands of professional video surveillance. The integrated quad processor and its range of connections (inputs: 4x BNC, 1x VGA, 1x HDMI, 1x Audio, 4x Alarm, outputs: 4 x BNC) make it a multitasking monitor, suitable even for complex video systems. In addition to the excellent image representation with high brightness, 3D comb filter and rapid response time, the monitor also impresses with its special security functions. In the event of an alarm being triggered, a pop-up with the image of the relevant camera appears on the monitor. Furthermore, display functions such as Picture-in-Picture and Picture-over-Picture can be used. The Profiline monitor is assembled into a stable metal frame.
