

HD-SDI/HDMI converter

Art.-Nr. TVAC22000

Seite 1 von 1

This converter is used for conversion of an HD-SDI camera signal into an HDMI interface. This gives you the option to directly connect an HD-SDI camera to a monitor with HDMI input (1080p25). In addition, the converter has two actively amplified HD-SDI outputs (BNC). This allows the HD-SDI signal to be forwarded to an HD-SDI digital recorder or HD-SDI monitor/converter.

Technologies

- Conversion of an HD-SDI signal into an HDMI interface
- HD-SDI standard camera SMPTE292M
- Status displays for signal quality
- Plug & play installation
- Dual operation: HDMI (1x) and HD-SDI (2x)

Technical data - HD-SDI/HDMI converter

Certifications	CE
Connections	2x BNC (HD-SDI), 1x HDMI (Typ A)
DC voltage supply	6 – 15 V
Dimensions	104 x 63,3 x 26 mm mm
Height	26 mm
Input	1x BNC (HD-SDI)
Length	104 mm
Max. operating temperature	50 °C
Min. operating temperature	0 °C
Output	1x BNC (HD-SDI), 1x HDMI (Typ A)
PSTI conformity required	No
Power consumption	500 mA
Width	64 mm
