

RG-6 Compression Tool

Art.-Nr. TVAC40690

Seite 1 von 1

The RG-6 compression pliers are the right tool for working with double-shielded RG-6 coaxial connections. This makes it easy to optimally connect BNC cables to cameras, recorders, monitors, repeaters, or converters. The matching RG-6 coaxial cable is a double-shielded 75-ohm cable that was specially developed for broadband applications (such as HD-SDI).

Technologies

- Suitable for BNC RG-6 compression plug
- Easy installation thanks to compression method
- Ergonomic handle
- High-quality material
