

Junction Box incl. Long Wall Mount for Speed Dome

Art.-Nr. TVAC31240

Seite 1 von 1

The wall bracket is an accessory for ABUS PTZ dome cameras and is used for secure, stable mounting of the dome cameras on the wall. The camera's power supply unit can be mounted in the bracket itself for effective protection against inclement weather conditions.

The holder (TVAC31200) and the integrated power supply unit housing for weatherproof mounting are included in the scope of delivery.

Technologies

- Simple installation of ABUS PTZ dome cameras
- Camera power supply unit can be mounted in the bracket to protect it from the weather
- Length of the bracket (projection): 310 mm
- For mounting on walls
