

Tinted Dome for IPCA33500

Art.-Nr. TVAC31091

Seite 1 von 1

This interchangeable tinted dome, which is made from robust polycarbonate, provides effective protection against any wind and weather conditions for cameras in unsheltered outdoor areas. Since the dome is tinted, it is not possible to tell from looking at it which direction the camera is pointing in. Plus, unwanted reflections in the camera - caused by integrated IR illumination for instance - can be offset.

The dome can be used with the following camera model: IPCA33500.

Technologies

- Polycarbonate dome
- Windproof and weatherproof (IP66)
- The camera's angle of view remains hidden

Technical data - Tinted Dome for IPCA33500
