

# Mini clip built-in power supply unit 12V / 1A

Art.-Nr. TVAC35202

Seite 1 von 1

The stabilised mini clip built-in power supply unit (230 V AC / 12 V DC, 1 A) is used to supply power to your video components. The enhanced version with a lever spring clamp means that quick installation is possible without the need for a tool or an additional clamp. Its compact dimensions mean that it is especially suitable for use as a flush mounted power supply for installation in a 55 mm flush socket and anywhere there is limited space available for the power supply.

## Technologies

- Quick installation: lever spring clamp means tool is not required
- Quick installation in 55 mm flush sockets
- Input voltage: 230 V AC
- Output voltage: 12 V DC at 1.0 A

## Technical data - Mini clip built-in power supply unit 12V / 1A

|                            |                 |
|----------------------------|-----------------|
| Dimensions                 | 55 x 51 x 26 mm |
| Height                     | 51 mm           |
| Input voltage AC           | 230 V           |
| Length                     | 26 mm           |
| Max. operating temperature | 50 °C           |
| Min. operating temperature | -10 °C          |
| Operating current          | 1.000 mA        |
| Output voltage DC          | 12 V            |
| Width                      | 55 mm           |
