

# Analogue HD Surge Protection

Art.-Nr. TVAC25230

Seite 1 von 1

Use the reliable and cost-effective surge protection in order to safeguard your cameras and digital recorders from overvoltage, caused by e.g. lightning strike or static discharge. This will avoid defects in your expensive equipment.

## Technologies

- Protects cameras and recorders from excess voltage
- Simple installation on the BNC connection
- Fast response time below 1 ns
- SPD Type 3

## Technical data - Analogue HD Surge Protection

Connection type	BNC
Connections	2
Damping	0,8 dB
Height	25 mm
Length	79 mm
Max. humidity	95 %
Max. leakage current	15 kA
Max. operating temperature	55 °C
Max. overvoltage	6.000 V
Min. operating temperature	0 °C
Net weight	0,075 kg
PSTI conformity required	No
Reaction time	<0,001 ms
Width	25 mm
