

5 m CAT 6A S/FTP PIMF patch cable

Art.-Nr. TVAC40831

Seite 1 von 2

The CAT 6A S/FTP PIMF patch cable provides reliable data transmission for your video surveillance system and is universally applicable to connect any network-enabled device. CAT 6A is designed for fast transfer rates of up to 10 gigabits per second.

S/FTP PIMF cables are also distinguished by their high quality and double shielding, thus providing protection against external interference and crosstalk.

Technologies

- Twisted pair cable with RJ45 plug
- Suitable for Ethernet networks up to 10 gigabits per second
- Designed for operating frequencies up to 500 MHz
- Cores shielded in pairs with metal foil
- The entire cable is also provided with a braided shield
- RoHS compliant

Technical data - 5 m CAT 6A S/FTP PIMF patch cable

Cable length	5 m
Cable type	CAT 6A Twisted pair 1:1
Connection type	RJ45 connector
Cores	4 x 2 x AWG 27/7
Diameter cores	0,457 mm
Gross weight	0,164 kg
Insulation	PVC
Max. operating temperature	70 °C
Min. operating temperature	-10 °C
Net weight	0,16 kg
