WALL BRACKET FOR PTZ MINI-DOME CAMERA (IPCS84511)

Position your cameras perfectly!

With this wall bracket, you can attach the IP mini dome camera with pan/tilt function (item no. IPCS84511) to the wall in the correct position.

The robust and reliable bracket is suitable for indoor and outdoor use. Measuring (L x W x H) 224 x 126 x 80 mm, it is precisely matched to the dimensions of the IPCS84511. The bracket is made of high-quality materials, including plastic and metal, which makes it particularly durable and resistant to the elements. The cable can be routed internally to optimally protect the connection cable from the weather and tampering.

The wall bracket is compatible with the IP mini dome cameras from the IPCS84510 and IPCS84511 series (and identical models), making it a versatile mounting solution for professional video surveillance.

Technologies

- Compatible with IPCS84511
 - Internal cable routing possible
